

To: Montgomery College Employees
From: Dr. Charlene M. Dukes, Interim President
Subject: **Craig Eozzo Assumes New Acting Role**
Date: February 8, 2022

In the wake of Joyce Matthews' recent appointment as interim senior vice president for advancement and community engagement, I am pleased to announce my appointment of Craig Eozzo as acting vice president for development and alumni relations and executive director of the Montgomery College Foundation. In this role Mr. Eozzo will oversee day-to-day operations of the foundation as well as fundraising initiatives and staff. He will also provide oversight to the foundation Board of Directors.

Mr. Eozzo joined Montgomery College in 2020 as senior campaign director and has 16 years of fundraising experience. He has devoted his career to student access to higher education and has quickly assimilated to life at Montgomery College. He works tirelessly with his team to secure support for students from the annual fund, major gifts, planned giving, and corporate relations. Mr. Eozzo helped the College launch the new Macklin Lab and has hosted multiple webinars to engage our donors with the life at the College throughout the pandemic.

Please join me in welcoming Mr. Eozzo to this expanded role.
