

Achieving the Dream: Student Success Vision

Fall 2018 Opening Meeting
August 20, 2018

STUDENT SUCCESS VISION

Through our inclusion in the Achieving the Dream network, Montgomery College will be a national model of educational excellence for all students by minimizing institutional barriers and maximizing opportunities to access, success, and completion. In a rapidly changing, competitive society, we will promote learning, equity, diversity, and cultural responsiveness to support student success and retention. Through courageous leadership, we will champion sustainable transformation through analysis of quantitative and qualitative data and involvement in a community of practice. These efforts will result in more of our students achieving their educational goals.

Student Success Goals
