Dear Student,

Welcome to Montgomery College!

We are delighted that you have decided to major in Engineering. The Science, Engineering & Technology programs at Montgomery College offer you

- a wide range of courses
- small classes taught by outstanding faculty
- academic support resources (free tutoring centers, great libraries)
- student organizations including Engineers without Borders and Engineering Clubs
- internship opportunities and research experiences on campus and off campus
- advice and assistance for students who plan to transfer to a four-year college or university after completing their program of study at Montgomery College
- career information and opportunities for academic and professional growth

We take great pride in the success of our graduates who achieve at the highest levels in their academic and professional pursuits. Some transfer and complete their bachelor's or higher degrees, or start careers in high-demand fields.

To make the most of opportunities at Montgomery College, please schedule an appointment with one of the following engineering advisors at the beginning of the fall semester:
