Comments: Effective links were made between Reading & Math levels and the scores		

Discussed strengths and weaknesses

Thoroughly discussed <input checked="" type="checkbox"/>	Partially discussed <input type="checkbox"/>	Did not discuss <input type="checkbox"/>
Comments:		

Developed planned actions to improve or maintain student success in competency

Identified actions related to results <input checked="" type="checkbox"/>	Actions identified somewhat related to results <input type="checkbox"/>	Actions did not relate to results or were not present <input type="checkbox"/>
Comments: In the future be more explicit about how the classroom based actions will be implemented? For instance, will there be syllabus revisions or faculty developed modules that emphasize the weakest areas, especially in reading.		

Overall Comments

The description of the results was thorough. The weakness in this reflection lies in the planned actions. There are many potential actions mentioned as what "could" be done.

Reviewer's Recommendation:

- Accept as submitted, no recommendation
- Needs Revision/clarification - **Identify what actions will be taken to improve student learning in the competencies**
